|-------------------------------|----------------------------|
| Sensitive period ⁴ | Week 16 – 21 |
| Lice levels | Click here |

| TREATMENTS | |
|------------------|----------------------------|
| See barentswatch | Click here |

¹ Calculated at the end of the production cycle as: EUL = Stocking count – harvest count – mortalities – other known escapes.

² OIE is the World Organization for Animal Health.

³ We do what we can to minimize our impact on wildlife, but unfortunately it may happen that we find dead birds or other animals in or near our sites.

⁴ Sensitive periods refers to the outmigration of juvenile wild salmonids
