| TREATMENTS | |
|---|---|
| **See barentswatch** | **Click here** |

[1] Calculated at the end of the production cycle as: EUL = Stocking count – harvest count – mortalities – other known escapes.
[2] OIE is the World Organization for Animal Health.
[3] We do what we can to minimize our impact on wildlife, but unfortunately it may happen that we find dead birds or other animals in or near our sites.
[4] Sensitive periods refers to the outmigration of juvenile wild salmonids
