(1) Lice figures are the combined total of gravid/non-gravid females

(2) Main mortality cause noted if the Marine Scotland mortality reporting thresholds of 1.5% per week for fish below 750g, and 1.0% per week for fish over 750g are exceeded

(3) Comments regarding sea lice management treatments are noted here

Full descriptions for abbreviated mortality causes shown above in the week are :

Environmental	Environmental
Physical Damage	Physical Damage
PD	Pancreas Disease
CMS	Cardiomyopathy Syndrome (viral infection causing weak hearts)
