

# Mowi ASC report

| OVERVIEW   |                          |
|--|--------------------------|
| Business Unit  | Mowi Norway Region South |
| Site   | Napp                     |
| ASC status   | Certified                |
| 1st certification Date                               | 14.06.2016               |
| Start of production cycle                            | 21.08.2021               |
| Date of last update                                  | 19.11.2021               |
| Wildlife Interactions - Birds                        | 2                        |
| Wildlife Interactions - Mammals                      | 0                        |
| Estimated Unexplained loss (EUL) <sup>1</sup>        | + 949 (0,3%) 3-19G       |
| Suspicious of unidentifiable transmissible agent     | None                     |
| Detection of an OIE <sup>2</sup> -notifiable disease | None                     |
| Number of escaped fish                               | None                     |

| WILDLIFE INTERACTIONS |          |                     |              |
|-----------------------|----------|---------------------|--------------|
| BIRDS                 |          |                     |              |
| Date                  | #        | Species             | Cause        |
| 10.11.2020            | 1        | Phalacrocorax carbo | Dead in cage |
| 17.11.2021            | 1        | Alca torda          | Dead in cage |
|                       |          |                     |              |
|                       |          |                     |              |
|                       |          |                     |              |
|                       |          |                     |              |
| <b>Total Birds</b>    | <b>2</b> |                     |              |

| MAMMALS              |          |         |       |
|----------------------|----------|---------|-------|
| Date                 | #        | Species | Cause |
|                      |          |         |       |
|                      |          |         |       |
|                      |          |         |       |
|                      |          |         |       |
| <b>Total Mammals</b> | <b>0</b> |         |       |

1) Calculated at the end of the production cycle as: EUL = Stocking count – harvest count – mortalities – reported escapes

2) OIE is the World Organisation for Animal Health

3) Sensitive periods refers to juvenile outmigration of wild salmonids

4) Average lice count (# mature females/fish)

| SEA LICE COUNTS         |                   |
|-------------------------|-------------------|
| <u>Sensitive period</u> | <u>week 16-21</u> |
